

Architect's visualization of the PDS International (Thai) Co. Ltd building; construction was completed in 2010

Vision

Our business is dedicated to protecting people, products and the environment. We aim to be the most preferred supplier and innovative producer of Occupational, Safety, Health, Environmental protection and Eyewear products in Asia.

Mission

We aim to provide our valued customers and partners with high quality products and value-added services at acceptable prices and returns for the company.

HISTORY OF PDS

PDS International Pte Ltd was established in 1993. The company's success and continued growth led to further expansion and an alliance with French, American and German manufacturers in 1999.

Later, PDS became a subsidiary of a European manufacturer and continued regional expansion with the establishment of subsidiary companies in Malaysia and an affiliate company in Thailand, including a network of regional distributors.

In the past decade, PDS has continued to take big strides in the Workplace Safety, Health and Environment arena. The company then began designing, developing and manufacturing innovative Personal Protective Equipment (PPE) that are suitable for both Asian and European physiques, as well as different climates.

PDS is now a management and employee-owned company. Without corporate constraints, we at PDS are now able to offer our valued customers with a gamut of brands, products and services in more locations. PDS now has companies in Singapore, Malaysia, Thailand, Indonesia, China and USA. PDS' portfolio of businesses consists of work safety and health, workwear, healthcare and optical business.

OUR IDENTITY

Protective Device Specialists - PDS. Simple and well-recognised, PDS is also commonly known as “People Dedicated to Safety”.

OUR LOGO

The bold typeface evokes rich knowledge and experiences that constitute the strong foundation of PDS today.

The letters lean gently towards the right, indicating a continuous strive to succeed. A strong grey tone conveys values of strength, trustworthiness and reliability, and demonstrates the strong bonds PDS has forged with its stakeholders.

The three wings at the upper right of our logo represent the fundamental three corporate philosophies which have kept PDS International soaring above the skies:

1. All stakeholders; our valued Customers, our Suppliers and our People and Shareholders.
2. Three principles of excellence; Product Quality and Service, Value Pricing and Delivery Services.
3. Our corporate Vision, Mission and Objectives.

The wings, forever flying upward and forward, symbolize our continuous progress. They are symmetrical, indicating productive synergy. And the gentle arc of the tops of the wings, in a three-dimensional effect, portray dynamism through their depth, movement and strength.

The smallest wing, above the other two, represents our human capital - youthful and daring, with a tenacious drive to achieve. The largest of the wings, represents strength, quality, professionalism, vibrancy and the values of the company. The wing beside the largest one, symbolizes harmonious partnerships PDS has with its stakeholders and most importantly, our valued customers.

The red wings evoke a sense of passion, determination and prosperity.

Our logo - an identity for a well-established company, dedicated to PEOPLE, PRODUCTS, and ENVIRONMENTAL PROTECTION - based on the sound philosophies of three wings, representing all stakeholders and principals, in accomplishing its vision, mission and objectives.

OUR PRINCIPALS

our services

OUR SERVICES

At PDS International, we are committed to quality protective solutions that comply with local and international standards. Based on these qualities - Design, Comfort, Protection and Reliability - we have continuously developed our own brands, as well as a representation of carefully selected European and American PPEs that fit the Asian physique. We continuously invest in R&D, human assets and sourcing of quality products in correspondence with workplace safety regulations to deliver high quality, reliable and affordable systems and solutions to our valued customers.

We're dedicated to rendering the best services to our valued customers. Our core duty is to ensure the protection of industry personnel, safety officers, engineers, organizations, institutions and the community, with our quality protective solutions.

TECHNICAL SERVICES (65) 6776 6200

Technical Support and Training

Our Technical Support Team is fully-equipped and trained to deliver top-notch technical support, trainings and the latest product information on the proper usage, fitting, limitations and maintenance of selected PPEs. Fret not, as we can conduct this for all our customers - resellers and end-users alike. Our technical services comprise of:

(1) Training

Reliable PPEs won't do the job if you don't know how to use them properly. With our competent product specialists and by collaborating with accredited training facilities, we will ensure that you undergo the necessary training on proper usage to protect yourself from workplace hazards. Our span of training categories comprise of:

- How to conduct respiratory fit-testing
- Fall protection usage, inspection and maintenance
- Safe working in confined spaces
- Proper usage of gas detectors
- Spill control and management programmes
- Self-Contained Breathing Apparatus (SCBA) usage and inspection

(2) Respiratory Fit-testing

Quantitative and qualitative fit-testing is provided for both SCBA and respiratory product brands that we represent. Should you have any queries on the proper donning and fit-testing procedures, our well-trained staff will be happy to assist you.

(3) Safety Prescription Eyewear (SRX) Programme

PDS Safety Prescription Eyewear Services (SRX) works in a system of convenience. We are able to provide refraction, edging, fitting and dispensing of SRX eyewear that comply with international standards. PDS has its own laboratory along with its in-house licensed opticians certified by Optometrists & Opticians Board (OOB) and Ministry of Health (MOH) Singapore. For your convenience, our in-house licensed opticians are also able to provide the SRX services on-site and at your nearest authorised and licensed optical outlet.

(4) Service and Maintenance

We believe in providing our valued customers with excellent after-sales service.

Our services include:

- Well-trained, manufacturer-certified technicians
- SRX edging and assembly laboratory
- Respiratory product service centre
 - Self-Contained Breathing Apparatus (SCBAs)
 - Powered Air Purifying Respirators (PAPRs)
 - Air filtration systems
- Gas detector product service centre
 - Calibration and servicing
 - Customised design and integration engineering
 - Consultancy and hazard analysis
- Regional service centre for Respirex chemical and hazmat protective suits
- Fire safety cabinets and containment systems service centre
- Fall prevention and protection solutions
 - Work-at-Height Total Safety Solutions
 - Inspection, repair and maintenance of fall protection equipments
- Inspection and testing of emergency showers and eyewash
- Calibration and servicing of breathalyzers

With our fully-equipped service centre and trained technicians, we assure you of enhanced technical support and service excellence.

(5) Rental/Leasing

PDS provides ease of ownership through leasing of safety equipment, or short-term rental solutions. Rental is available for the following:

- Portable gas detectors
- Breathing apparatus - SCBA
- Airline systems - configure with trolley unit for extended time
- Duperthal safety cabinets (lease only)

To find out more about our technical services, call us at (65) 6776 6200. Our technical support team will be more than happy to serve you.

LOGISTICS SERVICES

Prompt Delivery

Our regional offices and a structural distribution network ensure that your safety needs are delivered to you on time, even in other parts of Asia. With our integrated logistics system and superior warehousing facilities, we assure customers of reliable supply services and timely deliveries. We even provide next-day delivery services for local orders (ex-stock items).
